

# Whave Solutions, Uganda

Rural water utility, SDG 6.1, 6a, 6b

## Solar Water

Construction and O&M of solarized boreholes with piped water networks

## “Reliability is everything”

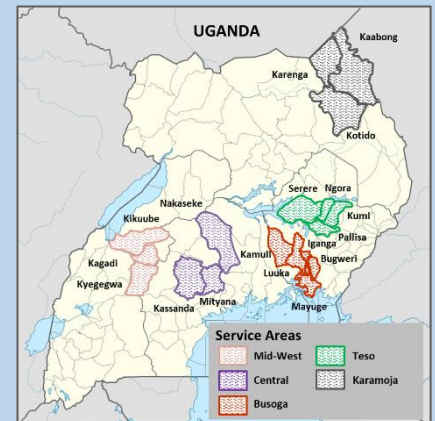

Most handpumps in Africa experience long down times each year. Whave works with communities, other service providers, NGOs, aid donors and government in Uganda to assure 24/7 safe water for everyone.

## Empowered water committees and local technicians

Inclusive water committees and professional technicians

## Where we work

## Hand-Washing Local Production & Marketing

Production of compact portable hand-wash stations and youth entrepreneurs engaged in rural marketing

## Partners

# Progress to SDG 6.1: Quarterly Reports

Whave results are shared with WASH stakeholders in Government co-ordination meeting each quarter. 24/7 service is assured for more than 320,000 people.

Whave Solutions KPI Outputs 2023				
2023 Q4	People served	Enrolled Communities	Functionality	Customer Satisfaction
Teso	62,186	170	100%	99%
Busoga	54,216	251	99%	95%
Central	109,474	365	100%	98%
Karamoja	94,336	268	94%	81%
<b>Total</b>	<b>320,212</b>	<b>1,054</b>		

2023 Q4	Payment Compliance	Number of breakdowns	Repair Time within 1 day	Repair Time within 2 days
Teso	80%	3	100%	100% <1 day
Busoga	49%	24	98%	100%
Central	39%	26	100%	100% <1 day
Karamoja	42%	43	90%	99%

The new Ugandan Government policy professionalizes maintenance for all rural waterpoints while also maximizing piped network coverage.

Whave is a pioneer accountable utility servicing handpumps and solarized boreholes.
